DETAILED ACTION

Response to Amendment

1. This action is responsive to applicant's Amendment A(Paper #7) dated 10/15/02.
2. Applicant amended independent claim 1. No claims were deleted; no new were added.
3. Claims 1-22 are pending.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1-22 as amended are rejected under 35 USC 112(1st paragraph) for failure to specifically delineate how to enable the applicant's invention and realize the best mode of operation. Applicant is requested to describe in sufficiently precise detail how the invention is to be utilized in the Figures and Specification beyond what has been submitted. Applicant failed to substantively address the issues raised in the First Office Action with respect to enablement.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 1-22 are further rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which

Art Unit: 3624

applicant regards as the invention. Specifically, applicant is requested to define the evolution of the mathematical concepts in sufficiently clear detail as to permit one to evaluate what he regards is the disclosure. Applicant has not provided the mathematical derivation of the algorithm, nor the assumptions or limitations of the formulations. Only descriptive discussion was furnished, which is inadequate to establish the correctness of the equations or the invention's novelty. Applicant failed to substantively address the issues raised in the First Office Action with respect to derivation, validity and description of the disclosure.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
